

# Culligan® Sulfur-Clear™ Whole House Filter

Do you dread turning on the tap and facing that rotten egg smell?

Have you had enough of rust stains or black spots on your laundry and fixtures?

**Culligan's 2 in 1 Sulfur-Clear water filtration system is the solution!**

- *Eliminates rotten egg smell*
- *Prevents rust stains and/or black spots on laundry and fixtures*
- *No need for harsh chemicals to remove stains*
- *Prevents pipe damage from deposit build up*

The Sulfur-Clear was specifically designed to remove two of water's most common problems. **Hydrogen sulfide.** Responsible for that rotten egg smell as well as black spots on laundry and fixtures. **Iron.** Responsible for rust stains on your clothes, fixtures and dishes. Often leaves an metallic aftertaste in drinking water.

Whether you have one or both, the Culligan exclusive process will filter away these impurities. All you are left with is fresh, clean water for bathing, cleaning and washing.

Say good-bye to the time spent scrubbing away stains with expensive harsh specialty chemical cleansers. Feel confident in putting your favorite shirts in the laundry without fear of ruin from rust stains or black spots. All the while your home's pipes will thank you for removing the impurities that can clog them up and lead to expensive repair.

## Product Specifications

**Sulfur-Clear™ System.** The air compressor is key to the aeration process which oxidizes the dissolved iron and hydrogen sulfide. On/off times adjustable to raw water characteristics.

**Customized to Fit Your Life.** Culligan electric timer automatically regulates all cycles - providing customized service for your individual needs. The Sulfur-Clear includes a meter and enhanced electronics.

**Bypass the System.** Cul-Flo-Valv® bypass valve allows you to bypass the filter for other uses, such as watering the lawn.

**Worry-Free Water For Everyone.** Guest Cycle™ recharge provides an extra supply of filtered water when there are more people than normal in the home.

**Reliable Valve.** Exclusive, non-corrosive control valve that directs water flow during service and reconditioning. Low friction piston and seal services defy problem water.

**Durable Tank.** Sturdy, filament-wound exterior, and smooth, non-permeable inner tank shell.

**Unique Multi-Layer Filter Media.** The media in the filter tank acts as an insoluble catalyst to enhance the reaction between the oxygen and iron.

UNIT	SERVICE FLOW (GPM)	MEDIA (FT³)	CONTROL VALVE	A	B	C	D	E
SC-10 1"	5	1.5	1"	64"	54"	10.5"	16"	12"

CAUTION: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. The contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water. Hydrogen Sulfide claims not currently validated by the State of Wisconsin.
